

بیلوا انڈیان سکول
BILVA INDIAN SCHOOL

Vision

Our vision is for all students to develop at Bilva Indian School as independent learners with self-belief and respect for others, with a lifelong love for learning and a strong foundation for future success

Presentation Policy

Aims

- To establish high expectations and pride in everything we do – both of ourselves and of the children.
- To create a clear and consistent set of guidelines for the presentation of children's learning.
- To create a learning environment where good presentation skills lead to perseverance, rigour in learning and developing good character with students committed to doing their best.

Objectives

- To motivate each individual to present their work in the best possible way.
- To enable children to recognise work that is presented to a high standard.
- To ensure each child knows the standard of presentation that is expected of them.
- To develop good character and motivate each individual to persevere and do their best
- To share this information with parents on a regular basis.

For Teachers

- To create consistency in standards of presentation across the school.
- To provide a baseline for judging acceptable standards of presentation.

Expectations for Teaching Staff

Remember – you are the most important role model for presentation and high expectations!

Use the resources available to you e.g. on the IWB – lines, grids to model good practice.

- All handwriting which is on display for the children – on the interactive whiteboard, books, flip charts, display – should be joined, legible, consistently formed and neat.
- All children's work must be marked using the agreed marking policy.
- When sticking work/labels/headings in books ensure they are straight and cut to size.
- If a child is away please ensure that their book is marked with 'absent' and write the short date.

Expectations for Children

Use of pencils and pens:

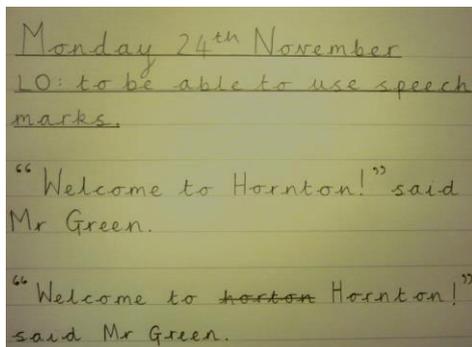

- Pencils should be used in all Maths books and in draft work if appropriate.
- Margins in books and on paper should be drawn in pencil if required.
- Pens should be used for all written work (not maths) as soon as possible from Year 3 onwards at the point where the teacher judges the child's handwriting to be sufficiently neat and fluent.
- Pens must be fibre tip. No ballpoint, biros or felt pens should be used.
- Felt pens should not be used in exercise books for underlining or illustrations although they can be used on paper at the teacher's discretion.

Expectations for Handwriting

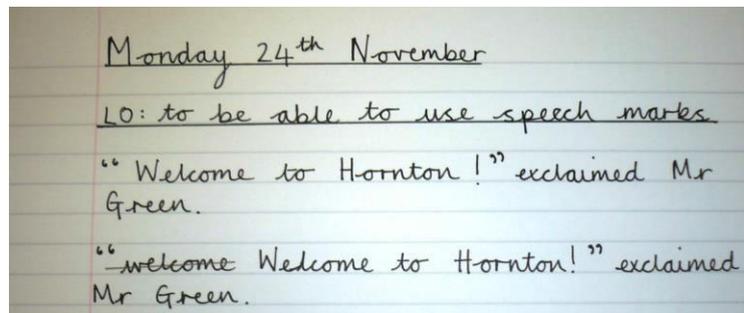

- Basic cursive script will be taught in KG2 and developed through the school with the expectation that by the time children leave Phase 3, they will be writing in joined cursive script.
- Cursive script is the preferred style for all worksheets and hand-outs.
- Use the right size letters when you need to – capital letters at the start of sentences and for proper nouns.
- Handwriting is taught for 15 minutes per week and as an integral part of spelling and phonics lessons.
- Good examples of handwriting from the children will be displayed in the classroom as a reference for others. These examples could include letter families such as 'curly caterpillars' etc.

Expectations for Layout

- The long date is written at the top; (in KS2 miss a line – see example below) then write the Learning Objective (LO) on the next line. It may be appropriate for the teacher or teaching assistant to write these in the children's books.
- The date and Learning Objective must be underlined using a pencil and ruler.
- At the start of a new piece of work, miss a line under the last piece of work, rule off and start on a new line. Don't leave a blank page.
- Miss a line under the LO and start at the margin.
- Leave one line between each paragraph.
- If you make a mistake, draw one neat line, using a ruler, through the mistake and start again – do not over-write or rub out.
- Write ON THE LINE to the end of the line. Do not write in the margin.

KS2 Presentation

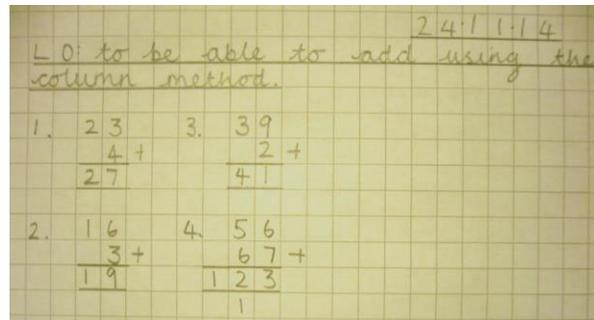

Layout in Mathematics

If appropriate, pages can be divided into two with a ruled line.

- The short date, to be written on the right hand side of the page, the LO and page number, if appropriate, should be underlined. It may be appropriate for the teacher or teaching assistant to write these in the children's books.
- All figures, this includes all mathematical signs and symbols, must be written neatly and clearly with one figure to each square.
- Each calculation must be clearly numbered to distinguish it from working figures. There should be at least one clear square between each calculation, both horizontally and vertically.
- When using vertical layout, the answer should have ruler lines above and below an answer with the operation sign to the left or right in a separate column.
- Calculations which involve 'carrying' should see the relevant digit written smaller than usual beneath the bottom line.

KS1 Presentation

KS2 Presentation

Classroom Organisation and Resources

- All tables should have containers with the appropriate equipment: rulers, pens, pencils, colouring pencils. Learning journals/draft books may also be stored in these containers if teachers feel this would be beneficial.
- Each room has "wipe-boards" available for all the children with lines and/or without.

Outcomes of Presentation Policy

- Children of all abilities are able to present their work to the highest possible standard increasing their confidence and self-esteem.
- There is consistency across the school in terms of the standard of presentation expected.
- Progression in presenting work between each class is evident and understood by all children and adults.

Monitoring of Presentation Policy

The Senior Leadership Team will collect examples of children's work on a termly basis to ensure that the policy is being implemented consistently. This ensures that the policy leads to good practice in facilitating effective feedback, learning and teaching.

Appendix 2: Exercise Book Usage

New exercise books are more durable and have more pages. This is to encourage the children to take a real pride about their work and to show continued development of work.

Taught handwriting sessions will take in handwriting books. However, there will be an expectation that the cursive script will be used in all written work, particularly in English books. Science will be taught in all years from KG to grade 8; however science work will be recorded in topic books from grade 1 to grade 3. From grade 4 onwards all science work will be recorded in a science book. Cursive script will be expected in all recorded science work. Spelling/word books are the same.

All children will also have a draft/ideas book. The primary use of this book is to record research, make notes etc. Draft copies of best work should be done in English books / topic books, and any mistakes corrected ready for best work. Best copies for display should be completed on appropriate display material eg paper, computer etc.

Enough books are in stock to allow for (at least) three books of each type in the year (and spare) and with the bigger capacity this should be more than enough.

How to save books!

Please try to save paper and particularly the paper in books:

- Always, encourage the children to rule off work and use the spaces rather than just start a new page for every piece of work.
- Pass unfinished books up with the children. Simply leave a page and allow the children to complete the book. This also shows progression.

Information of Handwriting

Letter Formation

It is important that children are taught correct formation from the start, and that teachers and parents both do the same thing. When helping your child with letter formation, please make sure you form the letters as shown on the attached sheet.

Upper and Lower Case Letters (Capital and small letters)

When helping your child with letter formation in the early stages, focus on lower case letters. To begin with, only introduce capital letters for the first letter of names. Explain that we do not normally use capitals within words.

Later on, when children are beginning to write in sentences, encourage them to use capital letters at the beginning, and for the first letter of names of people and places.

Progression at School

Much of our handwriting practice is linked with the teaching of sounds and spelling. In the KG class, there is a handwriting scheme followed from KG to Year 5. Children learn the formation of individual letters as they learn the sounds they make during daily phonics teaching sessions. When children have been introduced to all the letters of the alphabet, and when their hand-control is sufficiently developed, they will begin to join letters in simple two-letter words. They will then progress to longer words, linked with spelling patterns.

It is important that children are taught to join the letters in one particular way. If you wish to help your child with joining letters, please check with his/her teacher to see whether she/he feels your child is ready to do so, and, if so, how you can help.

Please remember to join letters in the way the children are taught at school.

Note: Capital letters are not joined. The break letter is x, no join is made after this letter.

Writing Equipment

Children need a varied selection of tools and materials to experiment with. They will benefit from using paper of different textures, shapes and sizes, both lined and unlined, pencils of different thickness and colours, pens, felt pens, paintbrushes, chalks and crayons. They can be encouraged to form letters with play-dough or plasticine and in sand.

As children begin to write more fluently, the majority of their work in school will be done in pencil. Children who have developed neat, legible and joined handwriting will be encouraged to use a pen for most of their written work. The school will provide a child's first pen, but from then on we ask that parents provide one of a similar type.

Left-handed Children

Don't automatically equate left-handedness with problems, but it helps to remember that left-handed children have different needs from right-handers.

It is important that left-handed children can see what they are writing. They should sit where elbows do not bump right-handers and where they are not in their own shadow. Encourage them to hold their writing tool away from the point so that their thumb does not get in the way. It also helps to use free-flowing pens that don't smudge. Particular care should be taken with anti-clockwise letters in the letter family: c, o, d, g, q, e.

The attached sheet 'Letter formation for left-handed children' may be useful, but do not worry if a left-handed child prefers to form letters in the way outlined on the sheet for right-handers. (The differences are with some capital letters and crossing the f and t.) As some left-handers cross "f" and "t" from right to left they may find it easier to leave the "g" unjoined in words.

Responding to Children's Writing

All children will come to school with some previous knowledge and experience of writing. As well as teaching sounds and letter-formation, we also encourage children to see themselves as real writers and writing as a means of communication. We will encourage children to have a go at many different types of writing, for example, captions, stories, messages, lists and notes. We will praise children's efforts, and perhaps focus on one thing that needs to be improved upon. This may be in connection with handwriting, spelling, or ideas. We ask that you, as parents, also praise your child's efforts, and focus only on one particular aspect of their handwriting that needs improvement at a time.

In this way children's confidence can be steadily built upon at the same time as their learning is being developed.

Remember – as in all things, children will progress at different rates – do not compare your child with another.

This information will be shared with parents on a regular basis and will also be available on the Website.

If you have any concerns, please see your child's teacher.
